Final Advice:

Maintain awareness of stationary trucks in isolated areas.

Global Advice:

Maintain awareness of stationary trucks in isolated areas.

Override triggered: No

Frame ID: 90 | Timestamp: 3.60s

Final Advice:

As a motorcycle safety expert, my advice is to stay vigilant for hazards around large vehicles like trucks and buses, especially in construction zones or remote locations. The presence of these vehicles can indicate potential work zones or isolation, requiring increased alertness to ensure your safety.

Override triggered: Yes

Frame ID: 330 | Timestamp: 13.20s

Final Advice:

Slow down and pay heed to the new stop sign near the truck.

Global Advice:

Heed stop sign near truck, slow down for safety.

Override triggered: Yes

Frame ID: 360 | Timestamp: 14.40s

Final Advice:

Ride cautiously through the industrial area, watching for the new stop sign near the truck and car.

Global Advice:

Ride cautiously through the industrial area, keeping an eye out for new traffic situations such as parking meters, people, and stop signs near vehicles to ensure a safe motorcycle journey.

Override triggered: Yes

Frame ID: 390 | Timestamp: 15.60s

Final Advice:

Ride safely through the industrial area by stopping at the new stop sign near the truck with a parking meter.

Global Advice:

As a motorcycle safety expert, I advise you to stop at the new sign near the truck with a parking meter, ensuring a safe ride through the industrial area.

Override triggered: Yes

Frame ID: 420 | Timestamp: 16.80s

Final Advice:

Ride cautiously through the industrial area, stopping at the stop sign near the truck and car for safety.

Global Advice:

As you ride your motorcycle through the industrial area, pay close attention to the new traffic situation: a truck with a parking meter now has a nearby car and a new stop sign. Make sure to ride cautiously and come to a complete stop at the new sign for a safe journey.
